

We are recruiting for **four psychology positions** at the Corporal Michael J. Crescenz VA in Philadelphia. Most positions include an opportunity for partial telework and part-time positions will be considered. Current openings include:

- Team lead for our Residential Rehabilitation Treatment Program
- Addictions Psychotherapist
- Couples Therapy Program Coordinator
- Psychologist for our Severe Mental Illness team

All positions will be joining a thriving and well-regarded Psychology Department. The CMCVAMC has an extensive history of excellence in health profession education; psychology training includes a large practicum program, an accredited psychology internship program, and 2 postdoctoral residency programs. In addition, the CMCVA is home to five VA Centers of Excellence and is adjacent to and closely affiliated with the University of Pennsylvania, offering an atmosphere of rigorous academic research and clinical applications. In recognition of our diverse Veteran population, our Psychology Department strives to enhance culturally-competent care through the opportunities provided by the interprofessional Behavioral Health Diversity Team and Psychology training program.

While the VA and the Psychology department are both great draws for this position, the city itself also has significant appeal. Not been to Philly, or just want to experience it for a few minutes? Check out this video created by one of our fabulous psychologists! <https://www.youtube.com/watch?v=MrJjS2mbwA>

All applicants must have a doctoral degree in psychology from a graduate program in psychology accredited by the American Psychological Association (APA), the Psychological Clinical Science Accreditation System (PCSAS), or the Canadian Psychological Association (CPA) and have successfully completed a professional psychology internship training program that was accredited by APA or CPA. Licensure preferred. The Corporal Michael J. Crescenz VAMC is committed to recruiting and retaining a diverse work force including staff and trainees that represent a wide array of identities across all intersections. We value and appreciate the unique contributions and perspectives offered by individuals with diverse cultural and experiential backgrounds understanding that these differences enhance the quality of our workplace and treatment services. As such, we are strongly devoted to representation within our staff that captures the rich dimensions of our Veterans and the Philadelphia community. Within our Psychology Service, we are seeking candidates committed to combatting systemic racism, inequity, and disparities, while elevating justice, diversity, and inclusion. We strongly welcome applicants of historically underrepresented groups and welcome all applicants dedicated to creating culturally responsive and safe spaces for Veterans and colleagues alike. This information may be indicated in the cover letter.

Anyone interested may send a CV and cover letter directly to: Johanna.Klaus@va.gov. Also feel free to reach out with questions (email or 215-823-5899).

Johanna R. Klaus, Ph.D.

Chief of Psychology

Corporal Michael J. Crescenz VAMC
